

# KATAPLAY — WORLD MAP DESIGN

Senior World Designer: Nintendo & Super Mario World Perspective **Versi: 1.0**

## WORLD MAP OVERVIEW

### The KataPlay Archipelago

### Map Design Philosophy

"Setiap world terlihat seperti tempat yang ingin anak kunjungi — bukan seperti pelajaran."

### Navigation

| Interaction | Type                  | Notes                   |
|-------------|-----------------------|-------------------------|
| Scroll      | Vertical & horizontal | Pannable, pinch-to-zoom |

| Interaction  | Type                | Notes                          |
|--------------|---------------------|--------------------------------|
| Tap node     | Linear within world | Bisa backtrack                 |
| Path         | Dotted line         | #0F8B6F, 4px                   |
| Locked world | Gray + lock         | "Selesaikan world sebelumnya!" |
| Secret path  | Hidden              | Easter egg — reward ekstra     |

# WORLD 1: PULAU HURUF

## Profile

| Atribut          | Detail                                            |

## WORLD MAP DESIGN RULES

| # | Rule                                      | Alasan                                          |
|---|-------------------------------------------|-------------------------------------------------|
| 1 | Linear within world, choice across worlds | Anak bisa pilih world, tapi dalam world urut    |
| 2 | Progress visible                          | Node selesai = berwarna, locked = abu           |
| 3 | Secret paths                              | 1-2 per world — reward eksklusif                |
| 4 | Rest nodes                                | Setiap 3 level ada "rest area" mini-game santai |
| 5 | World completion = celebration            | Firework + reward screen setiap world selesai   |
| 6 | Boss visible from start                   | Anak bisa lihat "musuh" dari awal — motivasi    |
